DETAILED ACTION

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-4,7,8,11-14,18,22, 25 and 26 are rejected under 35 U.S.C. 102(b) as being anticipated by Dickey. See the abstract, col. 2, line 65; col. 3, lines 7+ ; col. 4, lines 39+ ; and col. 5, lines 1,2 and 39-41.
3. Claims 1,2,5,8,12-15,18 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by DeLuca. See the abstract and col. 1, lines 5+

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 9,10,16,17,23,24,27 and 31 are rejected under 35 U.S.C. 103(a) as being unpatentable over DeLuca. DeLuca applies as above, but does not teach a specific number of cylinders. The number of cylinders is considered to be an obvious matter of design choice.

8. Claims 9,10,16,17,23,24 and 27-35 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ancimer et al. Ancimer et al applies as above, but does not teach a specific number of cylinders. The number of cylinders is considered to be an obvious matter of design choice as is the equivalence ratio.
